SHARING PASSION & PERFORMANCE

Welcome

Takuya Nakata
President and
Representative Director,
Yamaha Corporation

Yamaha is introducing a formidable line up of new products under our new slogan "Sharing Passion

& Performance" at the 2015 Frankfurt Messe (April 15-18).

Under its corporate slogan, "Sharing Passion & Performance", the Yamaha Group seeks to contribute to the affluence of people's lives through its business activities.

Since the time of its founding, Yamaha has been providing a variety of products and services centered on its devotion to sound and music. We have created excitement and cultural inspiration together with people around the world by responding to wide-ranging needs related to music, education, and culture.

In 2012, we were able to mark the 125th anniversary of the commencement of our operations. Thanks to the support of you, our stakeholders, including customers who are regularly using Yamaha products and services, we have been able to continue in business over such a long period of time. I would like to take this opportunity to express my sincere gratitude for your patronage.

As we will be making ardent efforts to ensure that Yamaha remains a company that continues to enjoy long and close relationships with its customers, I would greatly appreciate your ongoing support.

Sharing Passion & Performance

TransAcoustic Digital was never more natural

An acoustic piano with a volume control, or a digital piano with strings? Yamaha's latest development stretches the imagination and opens a whole new world of possibilities.

TransAcoustic™ Technology available on the following upright pianos: **U1 TA, YUS1 TA, YUS3 TA, YUS5 TA** and grand pianos: **GC1 TA, C1X TA, C3X TA**.

YUS1 TA

C3X TA

TransAcoustic

TransAcoustic™ is the name we have given to a new breed of piano. At its most basic level, it turns the soundboard into a "loudspeaker". This means that any sound can be delivered through this naturally resonant piano component.

But there's much more to TransAcoustic™ technology. Using a mechanism similar to that of the well-proven SILENT Series, it is possible to prevent the hammers from striking the strings and, instead, to play back digital samples. Unlike the SILENT Series, however,

there is no need for headphones or external amplification. The sound is played back through the soundboard.

You can control the volume and select the sound - from a sampled CFX concert grand, or a choice of electric pianos to a marimba and harpsichord. And perhaps the most scintillating sounds are generated when you combine the acoustic and digital properties of the instrument - gentle orchestral strings under a natural piano, for example. You can even play back pre-recorded accompaniment tracks as you perform. Because the instrument is a real, fully strung and resonant piano, the natural, sympathetic vibrations of both the soundboard, case and, significantly, strings, add a completely new dimension to

performance. The sampled sounds come to life with a brilliant realism no other instrument has approached.

SOUNDBOARD SPEAKER

Newly developed TransAcoustic™ technology transmits digital sound directly to the piano soundboard, thus making the piano itself behave as a speaker. On a TransAcoustic™ piano, the sound that you hear is resonating directly from the soundboard.

DIGITAL AND ACOUSTIC IN PERFECT HARMONY

The vibration of the soundboard is also transmitted to the piano strings, causing the strings to resonate naturally, just as they would in an acoustic piano. With the soundboard producing a rich tone and the strings a natural resonance effect, instrument voices sound better than ever. Digital was never more natural.

Yamaha's 'b in the Movies' competition

We are celebrating the 10th Anniversary of the hugely popular b series piano range with the launch of our biggest ever video competition "b in the Movies". The b series was designed as an affordable entry level piano for everybody from beginners to ambitious performers on a budget.

Delighting customers around the world, the b series demonstrates Yamaha's ability to combine craftsmanship, great value and exquisite performance.

We are looking for **10 winners** who can entertain with a b series piano in their video. Any b series piano is fine - it can be your own or one at your music school or even in the local piano showroom. And here's the thing...the piano doesn't have to be the star...it could be you, or the piano, or both! Whether that's playing chopsticks with your cat or singing to a sonata, just as long as you're celebrating with the b Series!

Have fun and unleash your creativity and flair!

The top 20 entries, as voted by the public, will be judged by our panel. The panel includes Yamaha Artist **Jamie Cullum** and the pianists **Andreas Kern** and **Paul Cibis** from **Piano Battle**.

Deadline for video entries is **1st October 2015** and the sooner you enter, the sooner

you can be building up votes! The video which receives the most public votes wins an extra **€1,000** prize. All 20 videos will go to the judging panel who will select 10 winners, who will each receive **€1,000** cash prize.

Find out more at: <https://www.facebook.com/YamahaPianosEurope>

We've got three b Series pianos on display at MusikMesse, so why not make your video entry whilst you're at the show!

Artist Series - Cocteau
Limited Edition

The Cocteau model is the result of a collaboration between Bösendorfer, Menton Music Festival and the Menton Museum Jean Cocteau.

"It is a great honour for the Menton festival, which will celebrate this year its 66th anniversary, to work with Bösendorfer on this exceptional piano. Cocteau was an avid visitor to the Festival and the special relationship he maintained with the City of Menton confers a particular sense to this project."

Paul-Emmanuel Thomas
Directeur artistique Festival
de Menton

Jean Cocteau (1889-1963) was a French writer, designer, playwright, artist and filmmaker. He was a contemporary of Picasso and had working associations with many world famous

"Jean Cocteau was a multi-disciplinary protean artiste who embraced creativity in all its forms... With inimitable elegance, Jean Cocteau created a body of work that is considered today to be of great importance."

Pierre Bergé - President of Comité Jean Cocteau

artists and musicians like Igor Stravinsky, Erik Satie etc. Jean Cocteau was fascinated by the Orpheus legend and made a film trilogy about it. Orpheus was considered to be the greatest musician of all time who could charm all living things and even stones with his music. He is normally portrayed holding a lyre.

The original Orpheus image from Cocteau is applied using the silk screen technique that Cocteau himself often used. It is in a numbered limited edition of 12 and is available in 200 and 214 sizes (185 by special order). The piano can be ordered in either black or white polyester with chrome fittings and silver coloured frame. Cocteau, as witnessed in "Le testament d'Orphée", was fascinated by mirrors and the chrome elements have an almost mirror like quality.

NU1PBW

The touch that inspires

The authentic touch and elegant form of an upright piano, for genuine piano experience. Now available in Polished Brilliant White.

With a stylish form that complements any setting, the compact, lightweight NU1 delivers the authentic feel of playing an upright piano, while freeing you from the disadvantages of owning and maintaining an acoustic instrument.

Yamaha's state-of-the-art digital technology brings you the superb sound of Yamaha's finest concert grand piano, minus the worry of issues such as tuning and volume control. A new take on a classic standard, the NU1 hybrid upright piano offers an authentic upright piano action, sounds sampled from the CFX concert grand piano, and excellent pedal response, making it the perfect choice for anyone starting out on the piano. In addition the NU1 comes equipped with a USB audio recorder that allows you to get the most out of your practices by recording them to USB memory for use as a tool to monitor your progress.

HPH Headphones

The new HPH headphones deliver quality sound with a carefully balanced bass and treble that is intensely satisfying to the listener, whether playing back recorded media or performing on a digital instrument.

They are made to enjoy comfortable listening for extended periods. All models are compact and fashionable designed, available in black or white to match your instrument. HPH-150 as top of the line features an open-air design that ensures superb tonal projection and comfortable listening.

Clavinova CLP-Series

Real grand piano sound, just for you

Clavinova.

Experience the expressive power of a grand piano with the CLP Series. Distilling the very essence of a grand piano into the feel, tone and touch that resonates with the aspiring pianist in you.

With two world-renowned concert grand pianos available at the touch of a button, the CLP Series lets you choose the perfect piano tone for the music you want to play. Offering far more than just sampled sound, the CLP Series reproduces the expressive characteristics of these two unique instruments in meticulous detail.

CLP-585PE

- Play with the voice of the CFX, Yamaha's finest concert grand piano
The Clavinova CLP Series also offers the unique sound of a Bösendorfer grand
- Experience the sound, keyboard touch and pedal feel of a grand piano
- A full range of functions for use when practicing; get free sheet music and enjoy over 300 preset lesson songs with the app "NoteStar" for iPad

Available in different colour variation like

Polished Ebony, Rosewood, Black Walnut, White Ash, Mahogany, White and Polished White

NoteStar - now available in version 3.1

NoteStar is Yamaha's application for the iPad that features hands-free, smooth-flowing, easy to read digital sheet music matched with real audio backing tracks, complete with lead vocals.

Now in NoteStar, owners of compatible Yamaha keyboards can also use pedals to turn pages and hear the piano reference track broadcasted wirelessly or via cable to their instrument.

With the version 3.1 you can playback the backing audio including "Vocal" part by using Bluetooth wireless connection. Therefore you can use Bluetooth speaker or optional Bluetooth Audio Receiver which can be easily connected to the AUX in of your instrument.

ARIUS YDP-S52

A slim-line digital piano that sounds as good as it looks

YDP-S52WH

YDP-S52B

Superb piano sound and performance combined with a slim and elegant appearance, the new Yamaha YDP-S52 is the ideal centrepiece for any musical home.

This digital piano feels instantly familiar to the touch, inspiring beginners and seasoned players alike. Available in black or white, YDP-S52 is completed by an elegant "soft fall" lid for when the piano is not in use.

- Graded Hammer (GH) keyboard with synthetic ivory keytops
- Pure CF Sound Engine
- 10 voices
- 192 note polyphony (maximum)
- Two-track recording (one song)
- New enhanced reverb and damper resonance
- Intelligent Acoustic Control and Acoustic Optimizer
- Integrated library with 10 demo songs and 50 piano songs
- USB-to-host
- Amplification: 2 x 20 Watt
- Free Piano Controller App for your iPhone/iPad* (*additional connecting cable required)

**Digital Piano Controller**

With the Controller App for your iPhone or iPad, quick and easy touch screen selection of the YDP-S52 and P-115 voices, rhythms*, keyboard touch sensitivity and more is now possible. The app also gives you intuitive control of many of the functions of the piano. Even if you don't own a YDP-S52 or P-115, by downloading the app you can listen to an audio demonstration of the instrument's voices.

* rhythms only available for P-115

Voice & Style Packs, printable Sheet Music, remixable Audio Backings and much more. Every week new content offers: from latest Chart Hitsongs, Pop-Rock Styles to classical Piano tunes. You will definitely find your favorite pieces! Come and visit us at yamahamusicsoft.com to find out about the most recent releases!

**PSR-E253 & PSR-E353**

Advanced digital keyboards packed with exciting features, high-quality-content and the latest learning technology.

The PSR-E253 and PSR-E353 digital keyboards make discovering music an entertaining and enjoyable experience. Authentic instrument voices and a huge variety of backing styles from around the world are combined with teaching functions that give a structured learning experience to music students of all ages. Both models contain the Yamaha Education Suite (Y.E.S.) learning function.

PSR-E353

- 61 keys with touch response
- 535 voices + 18 Drum/SFX kits + 20 Arpeggio (incl. XGlite voices)
- 158 styles
- 154 songs (incl. 12 Chord Study and 40 Chord Progression)
- Arpeggiator with 150 types
- AUX in with adjustable Melody Suppressor
- iOS apps available for your iPhone/iPad* (*additional connecting cable required)

PSR-E253

- 61 keys
- 372 voices + 13 drum kits
- 100 styles
- 100 songs (incl. 12 Chord Study)
- Chord Study Mode
- Phrase Recording
- AUX in
- New compact design

PSR-E253

**P-45 & P-115**

Powerful features that will enhance your piano performance at home or on stage. For portability, great sound and premium piano performance, the new Yamaha P-45 and P-115 deliver superb playability, outstanding value and Yamaha quality. While P-45 is available in black, you can choose black or white finishes for P-115. For both digital pianos, an optional stand is also available, giving a stylish appearance in any room. In addition, there is an optional high-quality pedal unit for P-115 available as well.

**P-45**

- Graded Hammer Standard (GHS) keyboard
- AWM Stereo Sampling
- 10 Voices
- 64 note polyphony (maximum)
- Reverb and Chorus/Effect
- Integrated library with 10 demo songs and 50 piano songs
- USB-to-Host
- Amplification: 2 x 6 Watt

P-115

- Graded Hammer Standard (GHS) keyboard
- Pure CF Sound Engine
- 14 Voices
- 192 note polyphony (maximum)
- 14 rhythms and 10 pianist styles
- Two-track recording (one song)
- New enhanced reverb and damper resonance; Chorus/Effect
- Intelligent Acoustic Control and Sound Boost
- Integrated library with 14 demo songs and 50 piano songs
- USB-to-host
- Amplification: 2 x 7 Watt
- Free Piano Controller App for your iPhone/iPad* (*additional connecting cable required)

P-115

P-115WH

SLG Silent Guitars

Yamaha's new SILENT Guitars are the perfect combination of innovation and Yamaha's world famous craftsmanship that has resulted in one of the most versatile guitars that you will have ever experienced. Designed with the travelling musician in mind, the new SILENT Guitar benefits from a new SRT preamp and SRT pickup. This cutting edge technology makes the sound more authentic than ever whilst the new superior reverb effects give you the feeling of playing in a huge concert hall. Whether you are at home or on the road, in rehearsal or on the stage, you and your Yamaha SILENT Guitar are ready for anything.

- New SRT pickup
- New SRT Preamp System
- New Rosewood & Maple Frame
- Newly designed body shape
- Improved Effects
- Auto power off
- Colours: Natural, Tobacco Brown Sunburst, Translucent Black

SLG200N-NT

SLG200S-TBS

CREATE YOUR VERY OWN DESIGN FOR YOUR YAMAHA MX49 OR MX61

Visit the website www.mx-skin.com to create your own brand

new look for your MX49/61 Music Synthesizer. Specially tailored sticker sets can transform the black housing of the synthesizer quickly and easily.

There is a selection of already finished alternative designs. However, you can design a new look based on your own ideas in a graphics program and upload it to a custom design template.

YAMAHA SYNTH BOOK - APP FOR IOS DEVICES

Yamaha's synthesizer history in one App - including an AN-synthesizer. Or maybe: Yamaha AN-synthesizer including Yamaha's synthesizer history in one App.

Yamaha Synth Book consists of five components: "Yamaha Synth 40 Years History", "Product Lineup", "Yamaha Apps", "Portals", and finally "AN2015". AN2015 is a synthesizer based on the same sound engine as the Yamaha AN1x: An eight-voice polyphonic virtual-analogue synth with three Oscillators plus Noise Generator, seven Filter types, two LFOs and Envelope.

DTX582K

The new DTX582k is the first Electronic Drum Kit to feature the all new KP100 Kick Pad. The DTX502 module is the brain of the kit, delivering perfect sound and professional features. Three 7.5 inch XP70 Tom Pads and the 3-zone Snare Pad XP80 are framed by two 3-zone Cymbal Pads. The 2-zone Hi-Hat Pad is mounted on a Yamaha hi-hat stand for realistic pedal action and versatile positioning.

KP100

The all new Kick Pad KP100 combines the best features of its older siblings: With its sturdy column design it is easy to setup. The large batter head offers a very natural feel and is very much suitable for double foot pedals.

DTX502 TOUCH VERSION 2 - APP FOR IOS DEVICES

The iOS app "DTX502 Touch" allows the user to take full control of the DTX502 Drum Trigger Module in a fast and easy way. It lets you select, create and edit User Drum Kits, for example, by assigning Voices or by setting important parameters - and all that by using the convenient touch panel of the iOS device. New features include the Hybrid Setup Wizard that helps users to put together a hybrid kit of acoustic and electronic drums. In addition, you can now save and load individual Drum Kits to use them in other sets.

DTXM12 TOUCH - APP FOR IOS DEVICES

The newest member in our family of apps for iOS is made to provide powerful support to drummers and percussionists who use the DTX-MULTI 12 on-stage. Working hand-in-hand with a DTX-MULTI 12, it gives you access to the Pad assignments and the Drum Kits of the instrument. In addition to the DTX-MULTI 12's built-in Voices, DTXM12 Touch lets you assign audio data (.wav, .aiff, .mp3, etc.) imported from Dropbox as well as content from your iPad's music library.

Variax Standard

Electric Guitar with Line 6 Variax Technology meets Yamaha Craftsmanship

Variax® Standard combines legendary Line 6 innovation with renowned Yamaha craftsmanship, forming a versatile modern instrument that shatters the limitations of traditional guitars. Addictively playable with classic looks, Variax Standard gives you exceptional quality—plus incredible Variax HD technology that puts it in a class of its own. Inspire your playing with a collection of the world's most coveted vintage electrics, classic acoustics and exotic instruments. Switch up your tunings on the fly. You can even go beyond what's physically possible and create the instrument of your dreams with Variax Workbench™ HD virtual custom shop software.

Variax® Standard

- Line 6 innovation meets Yamaha craftsmanship
- Access an entire collection of electric, acoustic and exotic guitars
- Switch between alternate tunings with the turn of a knob
- Create any guitar imaginable with Workbench HD software
- Lightweight alder body with Graph Tech nut and single-coil pickups
- Colours: Sunburst, White, Black

Firehawk FX HD Multi-Effect with iOS/Android App Control

Firehawk™ FX combines world-class tone with intuitive wireless editing, so you can get the perfect sound faster than ever before. The Firehawk™ Remote app for iOS® and Android™ gives you the power to sculpt great tone, right in the palm of your hand. Choose from over 200 legendary amps and effects—including 50 HD models—and wirelessly control every detail of your sound. You get access to 128 internal presets plus a massive online tone library, making it easy to find the right sound for any recording session, rehearsal or gig. With 1/4" and Variax Digital (VDI) inputs, two outputs, FX loop, USB connectivity and ultra-low latency, Firehawk FX is also an ideal guitar recording interface for PC, Mac® and iOS.*

FIREHAWK FX

- Choose from over 200 amps and effects including 50 HD models
- 5 FX on/off, channel and bank footswitches with colored LED rings
- Onboard tone control, plus detailed editing via Bluetooth® Remote app for Android and iOS
- Access 128 onboard presets plus thousands of tones in the cloud
- Wirelessly control every aspect of your signal chain
- Record to Mac, PC or iOS with the lowest possible latency
- 1/4" Guitar and VDI inputs, 1/4" and XLR main outputs, plus headphone output
- Low-latency DSP and USB recording
- Expression Pedal input

*Camera Connection Kit required.

RELAY G70 and G75

LINE 6's most advanced guitar wireless systems

Proven on stages worldwide, **Line 6®** digital wireless technology delivers industry-leading audio specs and the lowest-available latency. **Relay®** G70 and G75 build on that legacy to offer next-generation performance, unmatched sound quality and unprecedented flexibility for guitarists. Plug right into the locking 1/4" input on the transmitter—no special cables required. Easily add additional transmitters and instantly switch between instruments, complete with programmable presets for signal routing, levels and more. Featuring rugged metal construction and 8+ hours of battery life (with 50+ hours of standby time), Relay provides tried-and-true performance from stage to studio.

- Industry-leading audio quality proven on stages worldwide
- Locking 1/4" guitar input on transmitter—no special cables required
- Use multiple transmitters and switch guitars with ease*
- Tour-grade metal transmitter and receiver for lasting reliability
- Lossless 24-bit digital signal for uncompromised tone
- Best-in-class DAC and ADC converters provide super-low-noise transmission (better than 120dB dynamic range)
- Receiver accommodates multiple transmitters, with footswitch (G70) or push-button (G75) selection*
- Programmable scenes allow you to select signal input source, gain, Cable Tone and output routing for multiple instruments
- Select any combination of the two 1/4" outputs and one XLR-DI output for each instrument
- 8+ hours of battery life with 50+ hours of standby time
- Breakthrough low latency (<1.5ms from analog input to analog output)
- Built-in, calibrated, quad-antenna array with advanced dual receiver topology
- Auxiliary 1/4" input jack on receiver for plugging in directly without re-patching
- Onboard tuner and dedicated tuner 1/4" output
- High-quality XLR direct output with ground lift ensures consistent audio performance when connecting directly to the board or a modeler

*Additional transmitters sold separately. G75 supports optional remote footswitch.

FIREHAWK REMOTE APP FOR IOS AND ANDROID

- Remotely control amp parameters to dial in your sound
- Search a cloud-based library of thousands of tones
- Create, save and recall unlimited presets in the cloud
- Share tones via Twitter and Facebook
- Made for iPhone® 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s, iPhone 4, iPad® (3rd and 4th generation), iPad 2, iPad mini and iPod touch® (5th generation) and compatible Android devices running OS v4.2 or better (visit Line6.com/android for details)

The CBR Series

The CBR Series is Yamaha's newest lineup of passive loudspeakers that are capable of delivering high-quality sound with impressive power, while offering exceptional portability. The CBR10, CBR12, and CBR15 are all lighter than their DBR counterparts and do not require power cables, thus allowing them to easily adapt to both portable and rigged applications.

Steinberg NUENDO 7

15 years ago, the Nuendo digital audio workstation first enriched the pro audio market by introducing a new paradigm: to unite completely native technologies with peerless audio and surround features. With Nuendo 7, Steinberg now take the next step by including Game Audio Connect.

AG Series Multi-Purpose Mixer and USB audio Interface

The AG is available in two different models, the 3-channel AG03, and 6-channel AG06, designed to provide a wide range of users with a simple, yet high quality platform for music streaming, webcasting/ podcasting, gaming, mobile music, music production, compact mixing, desktop audio, and educational applications.

RIVAGE PM10 Digital Mixing Console

An enormous evolutionary step for PM series live sound consoles

More than ten years have passed since the Yamaha PM1D and PM5D defined the direction for digital live sound consoles. Now it's time for a new flagship that satisfies the significantly increased quality and versatility requirements imposed by today's live sound environment. The RIVAGE PM10 inherits the "DNA" that has made PM series consoles favorites with discerning engineers worldwide.

The DBR Series

The DBR Series is the follow-up to the acclaimed DSR and DXR Series and the most portable powered speaker that Yamaha offers. Comprised of three new models, the DBR10, DBR12 and DBR15, the new lineup features the state-of-the-art DSP technology inherited from its predecessors, ensuring superior performance and versatility, and safe, consistent operation.

TF Series - Touch & Flow

The TF series combines Yamaha know-how with new input from the field and the latest touch-screen technology to deliver an evolved experience in console operation. Smooth setup, practical scene presets, hardware designed for refined control, and software applications that integrate seamlessly with the entire system: these five elements comprise TouchFlow Operation, a new concept in console interfaces that offers unprecedented comfort and convenience in small consoles.

YAMAHA MUSIC APPS

Get more performance from your Yamaha instruments and mixers. With Yamaha's smart little helpers making music will be twice the fun! Applications that make sense for your creations and your emotions. Available from the App Store.

GUITAR

**THR SESSION**

Learn songs faster and easier and play along with your music library like never before. THR Session will change your daily guitar practice forever.

KEYBOARD / PIANO

**NOTESTAR**

Keyboard players can practice with a real band. The app provides easy-to-read sheet music, accompanied by audio tracks with vocals.

**PIANO DIARY**

Your personal "piano playing diary". Record your own piano playing for later replay, make up your playing statistics and enjoy rewards for your continuous piano practice.

**MY MUSIC RECORDER**

My Music Recorder is a free application designed for parents to easily record, archive and share their children's daily musical performances.

**DIGITAL PIANO CONTROLLER**

Select Voices and Rhythms, Keyboard Touch Sensitivity and more with ease. Supports a wide range of playing situations, from practice to live performance.

**P-255 CONTROLLER**

Adjust a wide range of the digital piano's functions in a highly intuitive manner. Store your favorite settings and recall them instantly whenever needed.

**PAGE TURNER**

It provides digital scores for all present songs stored in the EZ-220 and turns pages at the right time. This app can even record audio tracks of your playing and singing.

**SCALE TUNER**

Allows you to change the tuning of a compatible Yamaha keyboard or digital piano to Arabic or pure temperament tuning.

**SOUND CONTROLLER**

Sound Controller offers extensive controls such as pitch, cutoff filters, reverb and chorus levels bringing new dimensions to your performance.

**REPERTOIRE FINDER**

Using Repertoire Finder you can quickly search and download new registration banks specifically for the song you want to play.

SYNTH

**MULTI EDITOR ESSENTIAL**

The Multi Editor Essential gives you all the tools you need to mix your Songs and Patterns of Yamaha synthesizers.

**VOICE EDITOR ESSENTIAL**

Voice Editor Essential is a simple editor application for editing the parameters in Yamaha synthesizers.

**KEYBOARD ARP & DRUM PAD**

Keyboard Arp & Drum Pad includes a keyboard, arpeggiator and assignable drum pads.

**PERFORMANCE EDITOR ESSENTIAL**

Performance Editor Essential enables you to edit the Performances of Yamaha synthesizers.

**TNR-i**

The appeal of TNR-i isn't just limited to its faithful duplication of the TENORI-ON concept. Connected to a network, you can participate in sessions with up to four friends.

**CLOUD AUDIO RECORDER FOR MOTIF XF**

Cloud Audio Recorder for MOTIF XF allows you to record the sound of your MOTIF XF via Wi-Fi. The recorded data can be processed on the iOS device and shared on SoundCloud.

**MOBILE MUSIC SEQUENCER**

With built-in phrase patterns, this sequencer allows the user to intuitively create compositions in a manner that is in tune with the creative process by building up sections to build songs.

**SYNTH ARP & DRUM PAD**

Synth Arp & Drum Pad features an arpeggiator and drum pad that allows you to easily play the internal synthesizer or any connected MIDI device.

**SYNTH BOOK**

Yamaha's synthesizer history in one App - including an synthesizer that is based on the legendary virtual-analogue synth AN1x.

**TNR-E**

The TNR-E version of the TENORI-ON brings you two powerful master effect systems and 253 new tones that capture the essence of dub step, progressive house/EDM, electro, and other types of music!

GENERAL

**SET LIST ORGANIZER**

Set List Organizer can be used to create the set list for a live performance, including program changes and texts for each song.

**FADERS & XY PAD**

Faders & XY Pad offers 8 sliders each with up to 3 control change parameters. A unique XY-Pad mode lets you control multiple faders.

**FADERS**

Control external MIDI devices by sending MIDI control change messages.

**METRONOME**

A metronome app built with all of the know-how that only Yamaha can provide. MIDI synchronization, Tap Tempo and easy one-handed control.

**VISUAL PERFORMER**

Visual Performer is an app for iPad/iPhone/iPod touch that creates visual animations from your MIDI-based performances.

**SONG CHORDS**

Song Chords pairs a MIDI song mixer with synchronized chord display for practice and performance.

**MUSICSOFT MANAGER**

MusicSoft Manager manages your instrument content library from internal memory, connected storage devices, iPhone/iPad/iPod touch, computer and even Dropbox cloud storage services.

DTX DRUMS

**SONG BEATS**

Song Beats makes it easy to learn to play the drums along with your favorite songs!

**DTX400 DRUM LESSONS**

Learn the basics of drumming and see how the DTX400 series can help anyone to get started playing the drums.

**DTX400 TOUCH**

Control an extensive range of parameters, allowing you to fine tune the Yamaha DTX400 series to precision.

**DTXM12 TOUCH**

Gives you access to the Pad assignments and the Drum Kits of the instrument. DTXM12 Touch lets you assign audio data imported from Dropbox and your iPad's music library.

**DTX502 TOUCH**

Allows the user to take full control of the DTX502 Drum Trigger Module in a fast and easy way. It lets you select, create and edit User Drum Kits.

DISKLAVIER

**E3 CONTROLLER**

Remote control for all instruments of the Disklavier E3 series. This application offers full functionality including the display of all controls of the Disklavier control unit.

**DISKLAVIER CONTROLLER**

A new app for Disklavier listeners who want more freedom in listening to their favorite songs or Disklavier radio channels.

RECORDING/PA

**MGP EDITOR**

MGP Editor gives you additional control of your MGP mixer's REV-X and SPX effects parameters - as well as Hybrid Channel's Priority Ducker, Leveler and iPod/iPhone's playback settings.

**M7CL STAGEMIX**

M7CL StageMix is focused on the requirements for adjusting monitor mixes on stage via a wireless connection.

**LS9 STAGEMIX**

Remotely control your LS9 digital mixing console from anywhere within wireless range using a simple, intuitive graphical interface.

**CLOUD AUDIO RECORDER**

Cloud Audio Recorder allows you to record the sound of musical instruments to your iOS devices via the built-in microphone.

**CL STAGEMIX**

Provides remote control of Yamaha CL digital mixing console functions via a simple, intuitive graphical interface from anywhere within wireless range.

**QL STAGEMIX**

Provides remote control of Yamaha QL digital mixing console functions via a simple, intuitive graphical interface from anywhere within wireless range.

**MG REC & PLAY**

This app enables high-quality recording, as well as fast and easy playback of songs and sound effects, by simply connecting your iPhone/iPad to any MG Series XU model (Lightning to USB Camera Adapter needed).

YCL-CSVR

It's in your hands

The Yamaha CSVR clarinets are the result of years of development dedicated to a clearly focused concept: crafting a Custom clarinet that has a beautiful sound, consistent quality, and an affordable price. These qualities were combined with the high level of consistency that only Yamaha can provide, allowing clarinetists to demand a higher standard than ever before! Time and time again, the Custom CSVR clarinets proved to meet and even exceed evaluators' expectations for tone, response and intonation. Combined with Yamaha's high standards for quality and consistency, these new CSVR clarinets are exceptional instruments.

YCL-SE Artist Model

The new SE Artist Model Clarinet

A brand new model in Yamaha's clarinet range, the new SE Artist Model is a clarinet that gives players a rich, warm sound with the versatility to explore a wide range of musical possibilities.

The flagship model in Yamaha's ever evolving clarinet range, the new SE Artist Model promises to be a fantastic addition to the Custom clarinet series.

The re-designed Xeno Artist Model "Chicago" Bb Trumpet

Following on from the success of Yamaha's new Xeno Artist Model "Chicago" C Trumpet that was launched in 2013, this year sees the arrival of the Bb version, the new YTR-9335CHS. Providing players with a delicate response in all dynamics, excellent high register definition, and improved low register coverage, the beautifully brilliant timbre and solid tonal core of the YTR-9335CHS will allow you to express all of your musical ideas.

To achieve such dramatic performance improvements, Yamaha made a number of changes to the instrument that resulted in almost every aspect of the trumpet being reviewed and re-designed. With all of these changes, this has resulted in an instrument that is perfectly balanced with improved playability and unrivalled expressive capabilities.

YTR-8445

Innovation that inspires

The new generation of Xeno C trumpets include the same innovative updates made to the new series of Xeno B-flat trumpets.

They have been completely reconfigured to achieve a better response in all dynamics as well a more "centred" tone with stronger presence. The new sound concept combines warmth and clarity to fulfill the needs of today's discerning players.

YRS-401 / 402 B

Introducing the world's first environmentally friendly plastic recorders

Yamaha once again breaks new ground with the world's first musical instruments made from plant-based resins.

The 400-series Soprano Recorders are constructed using ECODEAR™, a type of plastic that replaces a portion of the oil-based raw materials used in regular plastics with resins produced from plant starch.

While these models share the same general design as the popular YRS-301 and YRS-302B, the higher density of ECODEAR compared to regular ABS gives these recorders a richer, more centered tone and improved breath resistance and response. All of this combines to give these new recorders a sound and feel close to that of wooden recorders.

Soprano voice, key of C. 3-piece construction with arched windway and Rottenburgh body design. Includes zippered cloth case, manual and fingering chart, recorder cream and cleaning rod.

Available in German (YRS-401) and traditional Baroque (YRS-402B) fingerings.

TP-3300

Introducing the TP-3300 portable timpani series

With aluminium bowls that have the same shape as our top-line models, Renaissance heads and hoops that work together to create a deep, sustained tone, the TP-3300 Portable Timpani Series delivers a professional, top-class sound.

The lightweight aluminium bowls and the ease with which the pedals and legs can be retracted make the entire system conveniently compact and portable. No effort has been spared in achieving the smoothest, easiest possible operation and adjustment. Casters that allow smooth movement, pedals with a stable operating feel, and leg and pedal height that adjust easily all add up to stress free overall operation.
